### Surgery and Anesthesia Consent Form

Owner's Name: \_\_\_\_\_ Phone: \_\_\_\_\_

Pet's Name: \_\_\_\_\_ Sex: \_\_\_\_\_ Age: \_\_\_\_\_

Type of Surgery(s) / Procedure(s): \_\_\_\_\_

During your pet's stay with us today, we would like to ensure that he/she receives exceptional care. Please read through the items below and initial where appropriate.

**\*\*\*Pre-Anesthetic blood work is mandatory for pets over 7 years of age. We require putting an IV catheter in all of our patients to give them the best of care. Placing an IV Catheter ensures an open pathway for giving medications in case of an emergency\*\*\***

**Pre-Anesthetic Blood work** (Price Range from \$59.20 to 105.90 please ask for details ) **Accept** \_\_\_\_\_  
**Decline** \_\_\_\_\_

The anesthesia used for our surgical procedures is metabolized through your pet's internal organs, we recommend bloodwork to check for any underlying issues with your pet. If any issues are found, we will call you immediately and your pet's procedure may have to be rescheduled if bloodwork is abnormal.

We also Recommend testing your Canine/Dog for Heartworms and Tick Diseases (\$34.50) and your Feline/cat for FELV/FIV (\$31.50) if they have not been tested recently. If positive, these diseases can Greatly Affect how your pet may handle Surgery. **Initial here: Accept** \_\_\_\_\_ **Decline** \_\_\_\_\_

If we notice fleas on your pet, we will administer a Capstar pill (This will begin killing all adult fleas on your pet within 30 minutes of administration) at your expense of \$8.15. This will prevent other animals in the clinic from contracting fleas and will ensure your pet's surgical site remains sterile. **Initial here:** \_\_\_\_\_

While performing a spay on females, there are times that we find an unexpected pregnancy or that the pet is in heat. This will incur additional charges of \$35.00 to \$95.00 due to this making the surgery more in-depth and more time consuming. **Initial here:** \_\_\_\_\_

Has your pet exhibited any of the following symptoms in the past 48-72 hours:

- Vomiting
- Coughing/Sneezing
- Diarrhea
- Lethargy

**If no, initial here:** \_\_\_\_\_

If your pet has exhibited any of the previously described symptoms, please let their nurse know ASAP.

My pet has been fasted for 8-12 hours prior to arriving at APC Veterinary Clinic.

## Surgery and Anesthesia Consent Form

If your pet is not current on their rabies vaccines, we are required by law to administer one (the cost is \$18). Vaccines given at home or by a breeder are not recognized by the state of Oklahoma. We also Recommend Bordetella and DHLPP to reduce the risk of contracting illness while here. **Initial here: \_\_\_\_\_**

To ensure that your pet does not cause harm to their incision site by licking or chewing, we recommend purchasing an e-collar to go home with them. If you do not wish to purchase an e-collar from us please initial.

You will be responsible for funding any treatment needed for incision complications.

**Initial ONLY if declining: \_\_\_\_\_**

I hereby authorize the veterinarian to examine, prescribe for, and perform surgery on my pet. I assume responsibility for all charges incurred in the care of my pet, I also understand that a deposit may be required and all charges are to be paid in full at the time of release.

**Signature: \_\_\_\_\_ Date: \_\_\_\_\_**
